

WHERE TO GET THE KIT FOR CIDER-MAKING ETC:

The only options I'm aware of involve ordering online:

www.vigopresses.co.uk are good but not cheap. Based way down in Honiton.

<https://www.the-home-brew-shop.co.uk> based in Farnborough. Untested by me.

We need to find a decent brewing / winemaking shop not too far away. Please let the rest of us know if you track one down. The only one I'm aware of was 4U2Brew in Fareham, but they went bust in 2019.

Getbrewing.uk based in Fratton pops up on internet search. Untested by me. Their website lit up as dangerous when I tried to go to it.
